

Pulmans — Happy Feet, Happy Face

An important step for rehabilitation and healing

Pulman medical shoes are specially designed for sensitive feet. The use of Pulman shoes is recommended in cases of:

- Rheumatoid arthritis,
- Vascular lesions: chilblain, frostbite, varicose veins, ulcer, angioma, phlebitis, lymphoedema
- Foot problems like: corns, callouses, plantar warts,
- Deformations due to gout, arthrosis, diabetes
- Toe and metatarsal head deformations (hallux valgus) Nail diseases, ingrown nails
- The shoes are made of RAZETTI; a fabric that allows complete air circulation.
- PULMAN footwear is sanitized for long-lasting protection against microbes and bacteria.
- The shoes are adjustable, and come with self-gripping tape to allow a wide range of fittings.
- The shoes can be opened fully to comfortably accommodate feet of all shapes and sizes.
- PULMAN shoes are hand and machine washable, guaranteeing complete hygiene. They dry quickly on the polystyrene mold provided.
- They come with a removable insole so that orthopedic corrective insoles made be used as required
- No seams inside the shoes.
- The soles are light, supple, non-slip, adherent and quiet, with rounded edges to reduce the risk of stumbling.

PULMAN shoes are recognized and adopted by many medical practitioners across the world.

How We Help

1. We assess your feet, measuring both each time you visit and make a purchase. This is because, over time, your feet can change.
2. It's normal to have two different sized feet, so we fit the largest foot first and make any modifications needed to then fit the smaller one. We can also provide two different shoe sizes.
3. We select shoes that match your feet's length and shape because sizing systems aren't standard.
4. We show you how to wear your shoes comfortably.
5. We can fit orthotics and other inserts into your shoes.
6. Our experienced team helps you choose shoes that match your activity.

Where to find us
